Summary

Frontend Developer with 2+ years building responsive web applications using React, JavaScript, and modern CSS frameworks. Delivered 15+ production projects including e-commerce platforms and hospitality websites, achieving 90%+ client satisfaction. Expert in React, Redux Toolkit, API integration, and responsive design.

Experience

Lumeon Dev (Self-Employed)
Freelance Web Developer

Lagos, Nigeria
September 2025-present

- Developed and deployed 15+ responsive web applications using React, JavaScript, and modern CSS frameworks for clients across hospitality, e-commerce, and healthcare industries
- Built full-featured hotel booking website with custom CMS, image galleries, and contact forms, resulting in 300% increase in online inquiries
- Designed and implemented e-commerce platform with Redux Toolkit for state management, shopping cart functionality, and local storage persistence
- Integrated RESTful APIs including TMDb for real-time data fetching and display in movie search application
- Optimized website performance achieving 90+ Lighthouse scores through code splitting, lazy loading, and image optimization
- Managed full development lifecycle from client consultation and wireframing to deployment and maintenance using Git, GitHub, and Vercel

Nupat Technologies
Full-Stack Developer Trainee

Lagos, Nigeria
November 2024-August 2025

- Delivered multiple React projects as part of a full-stack training program, meeting 100% of project deadlines.
- Recreated real-world UI layouts with modern CSS, improving layout accuracy and responsiveness scores.
- Collaborated on structured component design and state management, reducing duplicated code across projects.
- Applied best practices in file organization and build optimization, resulting in faster production builds.

Skills

🔗 Frontend

React, Javascript, HTML5, CSS3, Tailwindcss

🔗 State Manangement

Redux toolkit, Context Api

🔗 API integration

RESTFUL APIs, Axios, Fetch API

🔗 Version Control & Deployment

Git, Github, Vercel, Netlify, CI/CD

🔗 Responsive Design

"cross-browser compatibility"
